

# Getting Help with Homework

## 1. Ask for help -

ALWAYS! Don't ever be ashamed for asking for help.

## 2. Listen -

Pay close attention to what they are trying to explain to you.

## 3. Take LOTS of notes -

Write them down in a way that makes sense to you.

## 4. Summarize what they just taught you -

to help you retain the information and make sure it made sense to you.

## 5. Speak up -

If there is something you don't understand, ask for it to be explained another way.

## 6. Once you get the help make sure you can do it by yourself -

keep practicing the problem over & over by yourself, until you have it mastered and could teach it to someone else.
